

## 6A - NETWORK

Draw your Home Network topology and explain it?

- ① **ISP and Modem/Router:** The internet service provides your internet connection through a modem.
- ② **Router -** The Router connects all devices in the home network.
- ③ **Wifi connected devices -** Devices like laptops, smartphones, smart TV's, and IoT devices connect wirelessly.
- ④ **Ethernet connected devices -** Devices like desktop PCs or gaming consoles may use a wired ethernet connection for faster and more stable performance.
- ⑤ **IOT devices -** These includes smart home devices like smart speaker, cameras and lights.
