

SDLC (Assignment-1)

Create a one-page infographic that outlines the SDLC phases (Requirements, Design, Implementation, Testing, Deployment), highlighting the importance of each phase and how they interconnect.

① Requirements

Understand customer needs to set clear expectations.

Importance - Prevents costly misunderstandings.

② Design

Create system architecture and blueprints.

Importance - Guides developers and reduces errors.

③ Implementation

Develop the actual software by coding.

Importance - Turns plans into a working product.

④ Testing

Validate functionality and find bugs.

Importance - Ensures software quality.

⑤ Deployment

Launch the software for end-users.

Importance - Makes the solutions operational.

Interconnection

Phases how sequentially with feedback loops, Agile models revisit phases iteratively.
