

SDLC (Assignment-2)

Requirements Gathering - conduct a 30-minute mock interview to gather requirements for a fictional app that helps organize community events. Summarize the requirements and how you would document and trace them in a one-page brief.

Key Requirements

- * User Roles $\Rightarrow$ Event organizer
 $\Rightarrow$ Volunteer

Core functionalities

- * volunteer signups and management
- * Event calendar view
- * user profiles for members and organizers:

Non-functional Requirement

- * Secure login
- * Real-time event updates

Additional Features

- * Social Media integration for Event sharing

Documentation and Traceability

- * Requirement Document
- * Traceability Matrix

Mock Interview process

- * Role-play as Business Analyst: client acts as stakeholder.

- * Sample question like $\Rightarrow$ Key app features
 - $\Rightarrow$ supported platform
 - $\Rightarrow$ Budget and timeline
